If you have Privacy features enabled, Twilio's Sandbox may temporarily store the phone number for up to 3 days.

Sandbox may not reliably deliver international messages. For best results, register your own WhatsApp sender. Learn more (Direct Customer or ISV)

Try WhatsApp

Twilio Sandbox for WhatsApp lets you test your app in a developer environment without WhatsApp approval for your account.

Next step

Send a business-Initiated message

In this step, you can start a business-initiated conversation with your users. Business-initiated conversations required the use of pre-approved templates until the user responds. Choose from one of our pre-approved templates to start a business-initiated conversation. Once your customers reply, then you can send free form messages for the next 24 hours after your original message.
